Work Experience

State Affairs — San Francisco, CA
Senior Product Designer — 01/2026 - Present

- Lead designer for the company's first AI products: an AI chat assistant and 360 Views, a policy-intelligence aggregation tool used by enterprise clients including DoorDash, Walmart, eBay, and Mastercard.
- Design agentic workflows over dense legislative and regulatory material, building review and provenance patterns that let analysts verify and defend AI-generated output.
- Own the work end to end from research through implementation, prototyping and shipping in React and TypeScript.

Custoria Labs — San Francisco, CA
Founding Designer — 09/2025 - Present

- Founding designer for a privacy-first AI vault for high-value assets, owning end-to-end design 0→1 across the capture-to-share journey, design system, and growth surface; shipped the iOS app to 150+ users in six months.
- Designed the AI structuring experience for object recognition and data extraction, with review flows built around the model's failure modes, plus a zero-knowledge trust model for onboarding, storage, and sharing.

Augmedix — San Francisco, CA
Product Designer, AI & Growth — 10/2023 - 11/2024

- Scaled ambient clinical documentation from pilot to 3,000+ clinicians across HCA, Sutter Health, and UCSF in twelve months, growing engagement 65% and expanding the product line from one offering to four.
- Designed the first ambient documentation product for the emergency department, the highest-interruption clinical environment, with a note-review flow built to beat unassisted charting on time-to-sign.
- Integrated an agentic AI model into the core clinical workflow with nine PMs and AI leads, shipping in four months ahead of the company's $139M acquisition by Commure. Built the design system for the product line.

Rocket — Detroit, MI
Conversational AI Experience Designer — 09/2022 - 08/2023

- Founding designer for Liv, Rocket's conversational AI assistant serving millions of homeowners across a B2B2C model, shaping the end-to-end journey and dialogue patterns for the assistant.
- Cut client onboarding time 75% by redesigning the conversational journey, lifting both efficiency and NPS.

Anti-Defamation League — San Francisco, CA
Product Designer — 06/2021 - 05/2022

- Led R&D of a 120+ demo internal pattern library, cutting concept-to-prototype time by six months, and drove the design work behind partnerships with Twitch, Discord, and YouTube.

Intuit — Mountain View, CA
Product Designer — 05/2020 - 08/2020

- Lifted new-customer conversion 22% on QuickBooks onboarding through ML-driven personalization for 25M+ users.
